Catalogue of Paintings, Volume II, British Paintings to 1900, North Carolina Museum of Art, 1969, no.109

Ruskin spent several months in Switzerland and the Haute-Savoie, France in 1862-3. Talloires is on the east bank of the Lake of Annecy, about twenty-five miles south of Geneva. He was working on a book on Swiss towns and studying the geology of the area. In his Deucalion, published between 1875 and 1883, Ruskin writes: `I quickly saw that the elements of the question were all gathered in the formation of the mountains round the Lake of Annecy: and at Talloires, in the spring of 1862, made a series of studies of them, which only showed me how much more study I wanted.'
